External printer

2" printer

3" Seiko printer

Main technical characteristics:

Tablet	7-10"	Printing speed mm/sec:	
Built-in customer display (3" version)	5" TFT	2" printer	85
External customer display	Option	3" Seiko printer	200
Interfaces	4xUSB, Ethernet, RS-232	Paper roll diameter mm:	
Cash drawer interface	24V/1A	2" printer	35
Fiscal option	Yes	3" Seiko printer	60
Dimensions (WxDxH) mm:		Cutter:	
no printer	150x143x185	2" printer	No
2" printer	160x155x235	3" Seiko printer	Yes
3" Seiko printer	175x150x245	Power supply:	
Paper width, mm:		2" printer	9V/3A
2" printer	58	3" Seiko printer	24V/2,5A
3" Seiko printer	58-1 or 80-1	Tablet communication	Bluetooth, USB

Android and Linux based POS terminals Solutions

External printer

2" printer

3" Seiko printer

Main technical characteristics:

Chipset	Olimex A13/1Ghz/512 Mb	Interfaces	4xUSB-A + 1 internal, 2xRS-232, VGA
OS	Linux/Android	Support of USB adaptors	Ethernet, 3G, BT, WiFi
Display	8" TFT sensor 800x600	Printing speed mm/sec:	
Built-in customer display	5" TFT	2" printer	85
External customer display	Option	3" Seiko printer	200
Interfaces	4xUSB-A + 1 internal, Ethernet, 2xRS-232	Paper roll diameter mm:	
Cash drawer interface	24V/1A	2" printer	35
Fiscal option	Yes	3" Seiko printer	60
Fiscal data transfer modem	Yes	Cutter:	
Dimensions (WxDxH) mm:		2" printer	No
no printer	195x143x205	3" Seiko printer	Yes
2" printer	195x155x255	Power supply:	
3" Seiko printer	195x150x275	2" printer	9V/3A
Paper width, mm:		3" Seiko printer	24V/2,5A
2" printer	58		
3" Seiko printer	58-1 or 80-1		

We develop a newest customer displays 7" and 8". With rich graphic capabilities, this intelligent solution allows not only to show the current product pictures and correspondent promotions, but also to broadcast the advertisements when there is a possibility. The future products will provide a remote management of advertisements sequences.

Areas of applications – segment of small and medium business:

- Convenience stores, shops, boutiques, pharmacies;
- Hotels, motels, boarding houses, sanatoriums;
- Restaurants, cafes, fast-foods;
- Gaming business;
- Fitness centers;
- Other small businesses demanding a low cost automation solutions.

Our advantages – revolutionary solution, attractive design, mobility, compact size, a wide products range – from inexpensive to advanced, diversity of the connecting periphery, fiscal option.
